USAID Exposed

FUNDING BASELINES, PROPOSALS AND SOURCES

Funding baselines

$358M	2021 Europe and Eurasia estimate for media, civil society and disinformation-related work; 72% USAID, 28% State.
$158M	FY2020 media category in the USAID democracy and governance briefing. Different scope and year; not additive.
$300M/yr	Congressional minimum for the broader fund overseen by State and USAID, FY2020–FY2022; not a USAID proposal.

Proposed amounts

$20M	**Proposed ceiling for an information manipulation mechanism**
$8–10M/yr	**Option for a Summit for Democracy disinformation fund**
$2M	**Requested two-year information manipulation monitoring hub**
$1.5M	**Requested additional money for training already underway**

What GAO found

State and USAID allocated about $1.2B across about 470 projects with FY2020–FY2023 funding. GAO found 155 of the 466 records in its project table lacked obligation data and the agencies had not assessed overall results. This is an oversight finding, not a finding of fraud.

The supplied figures are not verified payments. The cited $93.9M Iraq figure remains unverified; the inspector general documented a $92.2M whole-program budget in 2021. Do not add figures that may overlap.
